Total number of accessions: 2  
Total Positive: 1  
Positive Percent: 50.00

### Donor Summary Report

This report shows donors filtered by "Requesting Party," "Agency," or "Sub Agency" and their test results for a selected time period. That means you select a "Requesting Party," "Agency," or "Sub Agency" and a time frame (enter starting and ending dates). Then, a report is generated for each donor with that "Requesting Party," "Agency," or "Sub Agency" for that time frame. Each donor will have a separate report that includes: the donor's name, the donor's id, the starting and ending dates, all the accessions with time/date collected and results, a total number of accessions, a total number of positives, and the percent positive.
